SDDC ARFORGEN STRATEGY

- Document MTOE Tasks
- Quantify GWOT Support
- Organize Sustainable Modular Formations

Full Spectrum Deployment and Distribution Capabilities
m Early Entry (JTF-PO) through Sustained Operations (DM4

JTF-PO is….

- **An Expeditionary Capability to Rapidly Extend the Distribution Network into a JOA and Establish Port of Debarkation Opening & Follow-on Operations for the JFC.**
- **Enhanced Surface Capabilities Would Expand Today's "air only capability" and include:**
  - **Distribution Network Assessment**
  - **POD Distribution Node Management**
  - **Movement Control**
  - **Passenger and Cargo Clearance**
  - **Early Integration of Commercial Capabilities**

A Joint Team Approach to No- and Short-notice Missions

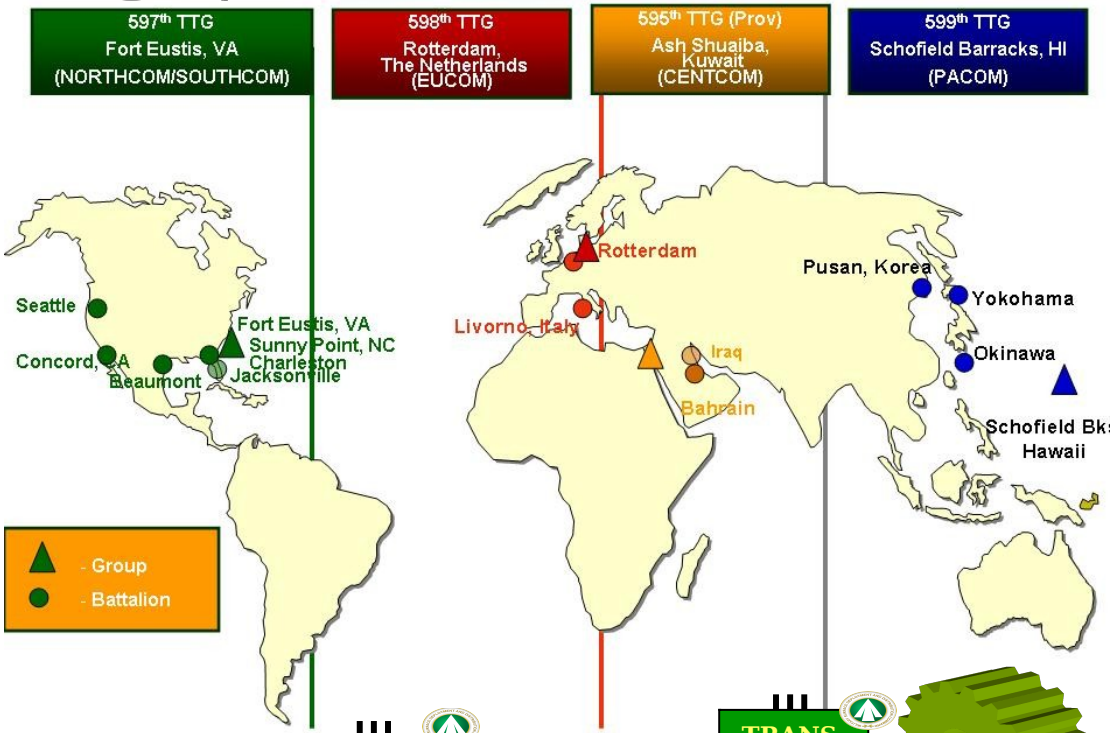
Director Mobility Forces Surface DM4-S

DM4-S is the COMARFOR or CJFLCC designated coordinating authority for US surface mobility with all commands and agencies both internal and external to the CJTF

- **Coordinates the integration of intertheater surface mobility capability provided by USTRANSCOM**
- **Facilitates the tasking and employment of US surface mobility forces attached or assigned to the CJFC**
- **Ensures all surface mobility operations supporting the CJFC are integrated into the assessment, planning, and execution process**
- **Coordinates with the DDOC and SDDC Ops Center to ensure joint surface mobility support requirements are met**

SDDC ARFORGEN STRATEGY

GROUP & BATTALION LOCATIONS



- 4 AC Deployable HQs
- 4 Aligned RC HQs
- Deployment and Distributi
  Capability
- CONUS & Forward Stationc
- Habitual Links to Joint & S

SDDC Transportation Group Training and Readiness Strategy Concept

Reset/Train	Commander's Assessment	Ready Force	Commander's Assessment	Available Force
Ready for What:		C2 Multiple Fort/Port Operations in Peace or Follow-on Expeditionary Deployment/Distribution Operations		C2 Fixed Fort to Port Peacetime Operations Surface C2 Plug to TSC Synchronize Movement Control and Terminal Operations
Report against What:		RSO&I IAW RDD Redeployment IAW RDD 100% ITV		Ability to Operate w/i TSC Integrate Multi-Service Capabilities Integrate Distribution & Terminal Functions
Training What:		TRAINING- BCS3, TCA2, WPS, ICODES (DLA Plug, USCG Plug, UMC Plug)		TRAINING- COCOM SPECIFIC PLANS, IT SYSTEMS REVIEW, PREPARE TO DEPLOY, DPOC,/MPOC OPS

Customer Wait Time/RDD
TWCF Cost
Booking/Billing Accuracy
In-Transit Visibility (ITV)
